

Ascension Academy

Tuition Contracts

During School Year 2001-02, all tuition contracts between parents and Ascension will be made with the Business Manager, with approval of Executive Committee on deviation from full tuition.

Tuition Assistance Policy for Subsequent Years

The applicant who requests a deviation from the policy must follow the procedure outlined below on an annual basis:

1. After acceptance of the student into Ascension, the family completes an application for financial aid, returning it with the appropriate documentation and fee to School and Student Services for Financial Aid (SSSFA).
2. SSSFA forwards a recommendation of appropriate tuition for the family to the Admissions Committee. The Admissions Committee will review the recommendation of SSSFA. Based upon the funds available for tuition assistance and the requests for financial aid, the committee will determine the amount of tuition.
3. Every student must pay the application fee, registration fee, and a certain amount of tuition.
4. If a family has a dispute about the tuition as determined by the Admissions Committee, the concern may be made in writing to the President of Ascension, who, after reviewing the concern, and if warranted, will establish an independent review team to assess the concern. After consultation with the review team, the President will make a final decision on the tuition to be paid.
